

# General explanations and information for the public

## Instructions for condominium committees

Given the emergency situation, I ask that you follow the below instructions:

- **Shared shelters** - Immediately open the shared shelters. Remove equipment and items from the shelters and enable tenants to stay there in comfort.
- **Entrance doors** - Leave intercom doors open and allow all persons to enter freely in case of a siren.
- **Shared roofs** - Leave entrances to roofs open and allow rescue services to operate if required.
- **Underground parking lots** - should be left open
- **Instructions for defense** - Continue to ensure proper defense during sirens: Immediately enter a safe room, remain there for at least 10 minutes, and avoid watching Iron Dome intercept the rocket. It is absolutely forbidden to visit the scene of the incident.

**It's been proven beyond a doubt:  
Appropriate behavior saves lives!**

The authority's information hotline is at your service:

Landline callers dial 106.

Dial 08-8545495 if you have a cellphone  
or are outside of the authority.

The information hotline will operate 24 hours a day.
